GREAT AMERICAN SPACES™

BEAUTIFUL ENVIRONMENTS. THOUGHTFULLY CRAFTED.

INTRODUCING END-MATCHED

Smooth Pine Collection

Classic, versatile 1x6 tongue & groove.

- Quicker installation
- You don't need to end on a stud

Upgrade any room in your house, cottage, or cabin with "the original" paneling profile featuring a classic v-groove or nickel gap edge. Select from our rich heavy-bodied stain colors for a warm, dramatic wall or ceiling, or go all-natural with our satin clear urethane finish.

- 1 x 6 tongue and groove, end-matched
- V-groove or nickel gap joint
- Matching trim available in all colors
- Touch up kit available

WHITEWASH

This is a natural pine product that will include characteristics such as knots, broken knots, splits and some warping. Color and texture variations are also common. Expect to sort and layout boards prior to installation to meet your specific expectations for usable material. Defects can be cut out and discarded. Depending on your specific threshold of "rustic," waste factors of 10% or more may be expected.
